STRATEGIC AIR COMMAND & AEROSPACE MUSEUM

LOOKING GLASS FLIGHT TRAINING CENTER

FLIGHT CONTROL

INTRODUCTION TO AVIATION

- Learn the basics of flying an aircraft on our cutting-edge, FAA-approved Redbird Flight Simulators.
- Taught by an FAA-certificated flight instructor, receive professional instruction.
- Practice maneuvers used in real-world scenarios. Prepare for emergencies and create flight plans to new destinations.

CAMP OVERVIEW

This camp is two day experience, providing an introduction to aviation and aircraft fundamentals. It is a more technical camp, geared towards those who are interested in learning to fly. Our certificated flight instructor provides all instruction along the way, ensuring participants develop safe aircraft operation skills.

LESSONS

- Aircraft Control & Maneuvers
- How to read aircraft instruments
- Takeoff & Landing
- Basic Aviation Weather
- Emergency Procedures
